Professional Summary

I am a creative developer based in Amsterdam with a strong focus on modern web development and e-commerce. Experience includes building and maintaining Shopify storefronts, developing custom Elementor and HubSpot themes, and translating design concepts into responsive and accessible interfaces. I specialize in crafting accessible animations using GSAP and Framer Motion and have worked with frameworks such as React (Next.js) and Svelte (SvelteKit). My work focuses on creating engaging digital experiences while balancing performance, usability, and maintainable code. Outside of development, I am a fitness enthusiast with a particular interest in powerlifting.
